TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a Quayle action. If any of above boxes 1. to 4. are checked, the correction required is only the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121.

Extensions of time are available under 37 CFR 1.136(a) **only** if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action.

Failure to timely respond to this notice will result in:

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

Continuation of 1(c) Other:

The applicants are thanked for the Amendments filed 24 October 2007 and 4 April 2007. However, several non-compliant amendments have been discovered in the aforementioned responses, requiring attention before examination may continue.

C.F.R. § 1.121(b) states, "Amendments to the specification, other than the claims, computer listings (§ 1.96) and sequence listings (§ 1.825), must be made by adding, deleting or replacing a paragraph, by replacing a section, or by a substitute specification, in the manner specified in this section. (1) Amendment to delete, replace, or add a paragraph. Amendments to the specification, including amendment to a section heading or the title of the invention which are considered for amendment purposes to be an amendment of a paragraph, must be made by submitting: (i) An instruction, which unambiguously identifies the location, to delete one or more paragraphs of the specification, replace a paragraph with one or more replacement paragraphs, or add one or more paragraphs."

The 'Amendment and Response to Office Action' filed 4 April 2007 improperly seeks to amend a single sentence of the specification (e.g., see at least Page 7, the sentence starting from "Page 17, line 20" of the 'Amendment and Response to Office Action' filed 4 April 2007).

The applicants are respectfully encouraged to provide an entire replacement paragraph for this specification amendment, as required by C.F.R. § 1.121(b)(1).

Additionally, the 'Amendment and Response to Office Action' filed 4 April 2007 improperly misidentifies the location of the aforementioned specification amendment. The sentence in question starts on page 17, line 19 -- not "Page 17, line 20" as identified by the 'Amendment and Response to Office Action' filed 4 April 2007.

Similarly, the 'Response to Response to Restriction Requirement' filed 24 October 2007 does not identify any location whatsoever for the "title of the invention" amendment (see Page 2 of the 'Response to Response to Restriction Requirement' filed 24 October 2007).

The applicants are respectfully encouraged to unambiguously identify the locations of all specification amendments, as required by C.F.R. § 1.121(b)(1)(i).

By such reasoning, this Notice of Non-Compliance is deemed necessary and proper at this time.

Please note: The amendments have not been checked to the extent necessary to determine the presence of all possible non-compliance errors. If additional issues of non-compliance are discovered at the time of a subsequent amendment, yet another Notice of Non-Compliant Amendment will be necessitated. Applicants' cooperation is requested in correcting any other errors of which applicants may become aware.
